

DCPR 2034 Regulation Reference — DBOT Land Intelligence

Source: the official sanctioned DCPR 2034 document (portal.mcgm.gov.in), cross-checked against independent secondary sources for the numeric table. This is the target formula reference for the FSI Statement engine — confirmed data only, gaps marked explicitly rather than guessed.

Confirmed abbreviations (resolves earlier open questions from the schema doc)

Abbrev	Meaning	Note
PPL	Public Parking Lot	Resolves "PPL Incentive FSI" under 33(18) — was unconfirmed 2 turns ago
AR	Accommodation Reservation	A reserved plot where the owner can hand over part to MCGM free of cost/encumbrance and develop the balance with permissible FSI
ASR	Annual Schedule of Rates for FSI 1 (Stamp Duty Ready Reckoner Rate)	Matches "Land Rate (Open Land for FSI 1)" field seen in the video
LOS	Layout Recreational Ground/Open Space	Matches "Layout Open Space (LOS)" in the FSI Statement schema
TDR	Transferable Development Rights	
AH	Affordable/Social Housing	
CBD	Central Business District	
CDS	Cluster Development Scheme	

Regulation number → actual subject (confirmed from the official table of contents)

Regulation	Subject
30	Floor Space Indices & BUA computation — the core formula, this file's main content
32	Transfer of Development Rights (TDR) — eligibility, generation, utilisation
33(7)	Redevelopment of cessed buildings, Island City, by co-op housing societies
33(7)(A)	Redevelopment of dilapidated/unsafe tenant-occupied buildings, Suburbs
33(7)(B)	Additional FSI for redevelopment of ordinary (non-cessed) residential societies
33(9)	Cluster redevelopment (Cluster Development Scheme)
33(10)	Slum rehabilitation
33(11)	Permanent Transit Camp tenements for slum rehab / rental housing — narrower in scope than assumed
33(12)	Redevelopment of contravening TP Scheme structures / tolerated structures in road alignment
33(18)	Multi-storey Public Parking Lots
33(20)	Affordable Housing / Rehabilitation & Resettlement
33(23)	Transit-Oriented Development (TOD)

Regulation 30(A) — Zonal (Basic) FSI, by zone and road width

This is confirmed, real, and cross-checked across three independent sources.

Island City — Residential / Commercial zones

Road width	Zonal (Basic) FSI	Premium FSI	TDR	Permissible FSI (before fungible)
Less than 9m	1.33	—	—	1.33
9m to <12m	1.33	0.50	0.17	2.00
12m to <18m	1.33	0.62	0.45	2.40
18m to <27m	1.33	0.73	0.64	2.70
27m and above	1.33	0.84	0.83	3.00

Island City — Industrial zone

Flat 1.00 FSI, no premium or TDR component.

Special case

Area earmarked for BARC (M Ward): Residential/Commercial capped at 0.75 flat, no premium/TDR.

Fungible FSI (confirmed rate)

35% fungible compensatory area applies over and above the permissible FSI above — matches the "On Zonal (Basic)/Rehab FSI — 35%" line seen in the video's FSI Statement report exactly.

Not yet retrieved: the Suburbs & Extended Suburbs table (basic FSI there is commonly cited as 1.00, but I haven't pulled the actual regulation table for it the way I did for Island City above — treat that number as unconfirmed until sourced the same way).

Open items — not yet pulled from the source text

Each of these needs the same treatment as Regulation 30(A) above: actual clause text, not a summary blog's paraphrase, cross-checked where possible.

- ☐ Suburbs & Extended Suburbs FSI table (companion to the Island City table above)
- ☐ 33(7) — cessed building redevelopment: eligibility conditions + FSI formula
- ☐ 33(7)(A) — dilapidated/unsafe tenant-occupied buildings, Suburbs
- ☐ 33(7)(B) — ordinary society redevelopment (confirmed earlier: 10 sq.m per member or 15% of authorised BUA, whichever is more, for societies older than 30 years — still need the full clause, this is a partial recall)
- ☐ 33(9) — cluster redevelopment eligibility + FSI
- ☐ 33(10) — slum rehabilitation FSI mechanics
- ☐ 33(11) — Permanent Transit Camp provisions
- ☐ 33(12)/(12B) — contravening/tolerated structures, and what specifically "12B" refers to (the base TOC only shows 33(12)(A) and (B) as "contravening structures" and "tolerated structures" respectively — need to confirm this is the same 12B seen in the FSI Statement screenshot)
- ☐ 33(18) — PPL FSI mechanics (subject confirmed, formula not yet pulled)
- ☐ 33(20)/(20B) — Affordable Housing / R&R, and what "20B" specifically denotes
- ☐ 33(23) — TOD FSI mechanics (subject confirmed, formula not yet pulled)
- ☐ Regulation 32 — TDR generation/utilisation mechanics in full
